

Plants R - 2024

RANUNCULUS aconitifolius 'Flore Pleno'

Exquisite tiny double, pure white buttercups, on branching stems. Early summer.

RANUNCULUS acris 'Flore Pleno'

The meadow buttercup with small double yellow flowers in early June. Makes a clump, does not run.

REINECKEA carnea

I have seen that this flowers in early spring but as I write in November I can find pale pink flowers nestling in the narrow upright green leaves. Good in shade.

RHEUM 'Ace of Hearts'

A small form with heart-shaped leaves and tall spikes of tiny pink flowers.

RHEUM kialense

Dwarf ornamental rhubarb. Heart-shaped leaves. Pale pink sprays of tiny flowers in early summer.

RHEUM palamatum 'Atrosanguineum'

New rhubarb type foliage in purple. The undersides stay purple throughout the summer. Tall spires of red flowers in early summer. Not too dry conditions.

RODGERISIA 'Irish Bronze'

Shiny foliage opens chocolate brown in the spring and fades to green. Pink flowers in summer. Needs sun to colour well.

RODGERSIA podophylla

Excellent leaves like a chestnut leaf, bronze in the spring fading during the summer. The leaves are better than the flowers. Good autumn colour. Best in damp shade.

RUDBECKIA deamii

Upright stems with vivid yellow flowers with black central cones.

RUDBECKIA maxima

A rosette of large upright glaucous leaves much loved by snails, from which rise tall stems topped with yellow cones. Needs some moisture and feeding. Very eye-catching.

RUDBECKIA occidentalis 'Green Wizard'

Green petalled flowers, especially for flower arrangers.

RUDBECKIA subtomentosa

4'

£7.50

Clear yellow flowers with a black centre in late summer.
From wild collected seed.

RUDBECKIA subtomentosa 'Henry Ellers'

4'

£7.50

Bright yellow flowers, petals are rolled to give a quill
appearance. Autumn flowering. Excellent to pick.
